Homework

Arithmetic practice.

Reading comprehension practice.

Just a quick message, to let you know how well the children did this week, in their "Mock" Arithmetic SATs test. We wanted the children to have an idea of what to expect for SATs week, so we set everything up as similarly as we could to the real thing. The children appeared confident and resilient about it all, and they worked really hard! This is reflected in the improvement of everyone's scores - from our last assessment. I'm very proud of them all!

Have a lovely weekend everyone.

Mr J
